

## Product Data Sheet - PAL50 PC Marker Kits

### Description.

Partex PC Cable Markers are designed to clip securely onto cables that have already been terminated. The strong barbed shape prevents them from moving once positioned on the cable. Each sturdy box contains 50 removable compartments, has a lockable lid and a robust carry handle.

### Specification.

Material: Cadmium and Silicon free rigid PVC

Temperature range: Shape permanent between -30°C and +60°C

Resistance: Flame resistant to UL94-V0. Resistant to UV radiation.
